## **THE CONTENT OF THE OFFICIAL WEBSITE OF UTHB, UNIVERSITY TEACHING HOSPITAL OF BUTARE (CHUB)**

### **1. Home**

#### **- Current news**

News articles and stories must be posted here.

#### **- Welcome message (Note)**

The UTHB, University Teaching Hospital of Butare is located at Mamba, District of HUYE in the Southern Province of Rwanda. It is a National Reference Hospital which serves the former Provinces of Butare, Gikongoro and Cyangugu. The last one is now in Western Province, Butare and Gikongoro are now in Southern Province.

According to the last assessment of the population carried out in 2002, the total population of these three former provinces is 1,823,138 people. According to the National Commission of Poverty Reduction, these three former provinces are poorest of the territory.

The University Teaching Hospital of Butare consists of two most of activities which are:

#### **- Administrative activities**

#### **- Clinical activities**

These activities make a homogeneous in the Hospital. Indeed, according to bearing law No 41/2000 of the 7/12/2000 of creation and organization of the CHUB, two institutions of the Faculty of Medicine of the NUR including the Teaching hospital (HUB) and the University Laboratory were combined under the name of the University Teaching Hospital of Butare (UTHB), the National Reference Hospital. According to the same law, the UTHB is operating with four missions:

- **Services to the Community**
- **Teaching**
- **Research**
- **Supervision of the Hospitals of Districts and countrywide**

Since July 2002, administrative structures were established at the UTHB. Before this date, all the administrative steps were done with/at the NUR, National University of Rwanda (UNR). Thus it was appointed the Administrator, the Chief of the personnel, In Charge of Counting as well as the Chief of Provisioning.

#### - **Official Statements (Communiqués officiel), Press release and Tender notices**

All publications related to Communiqués, Press releases and Tender notices will be posted here. On the home page, because people need to find them easily without going far or beyond.

## **2. About us**

- ***Historical background***

The UTHB, University Teaching Hospital of Butare, is created in 1928. By the time, it was The Butare Hospital. ***It was created by Belgian colonies. (Is it true?)***

The Butare Hospital became a University Teaching Hospital in 1966.

In 2000, The UTH, University Teaching Hospital (Centre Hospitalier Universitaire, CHU) was established by Law with an autonomous status. The laboratory became a department of Medical Biology depending on the UTH.

And in 2002 was the recruiting of administrative personnel according to the new organizational chart.

Here are important dates and facts at UTHB:

## **IMPORTANT DATES and FACTS**

**1928:** Creation of Butare hospital.

**1954:** Research Laboratory on veterinary medicine for Rwanda, Burundi & Eastern Belgian Congo.

**1964:** The Laboratory was given to National University of Rwanda, NUR (After creation of Faculty of Medicine in 1963.)

**1966:** The Butare Hospital became a University Teaching Hospital (UTH/B).

**1967:** The Laboratory was given to Faculty of Medicine /National University of Rwanda (NUR).

The Laboratory was definitely named « *University Laboratory* » and was separated from its veterinary medicine branch.

**2000:** UTH/B (CHU) established by Law with an autonomous status. The laboratory became a department of Medical Biology depending on the UTH/B.

**2002:** Recruiting of administrative personnel according to the new organizational Administrave.

### **• *Vision***
